Testimonials

"I use the Aromatherapy Nebulizer from Chi Activate everyday. Not only does it make the air smell beautiful, it also acts as a humidifier. In addition, when used with certain essential oils it actual helps to clean the air. I use it with my son when he has a cold or at night to help him sleep. I especially like to use it in the winter during flu and cold season. It helps to disinfect the environment. I also use Chi Activate's Aromatherapy nebulizer in my professional life. I am a certified aromatherapist and when I am giving massages I use it to help calm my clients and set a spa like atmosphere in their own home."

How Can Aromatherapy Help You?

Our body is bombarded everyday with many harmful chemicals coming from the food we eat to the cosmetics we use. Aromatherapy uses pure essential oil that helps promote health and well-being.

In addition, we live hectic, stressed filled lives with very little time for ourselves. When we don't take time for ourselves we find ourselves losing our tempers with our loved ones, getting sick more often and just not feeling the joy of life anymore. Aromatherapy treatments and products provide us with time for ourselves. Aromatherapy allows us to de-stress knowing we are doing something good for ourselves
